

# BACK ARMOR

## Modern Back Armor Guide

### MODERN

Modern style backplates can be as simplistic or elaborate in design as desired. It can be as simple as a singular plate, or be segmented into pieces.

### LEGACY

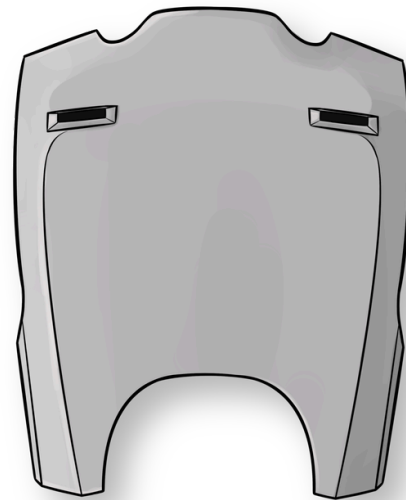

Legacy backplates are unified pieces of armor. Segmented backplates are not permitted for this style.

### PILOT

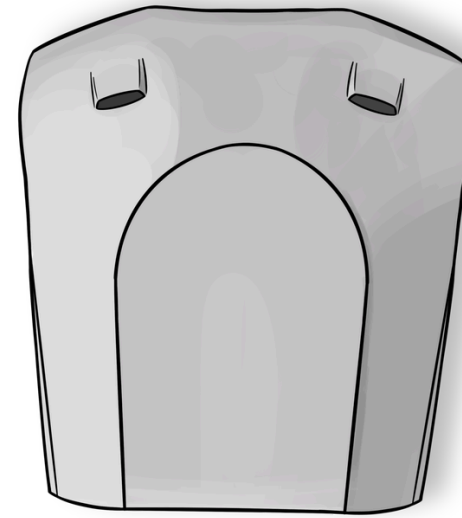

Life support boxes can be mounted on the back of Pilot style Mandalorians. It can be as short as (1/3) of the back unless it supports a life support box.

#### NOTE

\*Modern back armor can be customized and does not have to match canon reference so long as the CRLs of the chosen style are upheld.
