

ENVIRONMENTAL SPECIALISTS

BRIGADES

MMCC Brigades represents a distinct set of professions, with specific costume requirements known as Brigade Requirement Lists (BRLs). Members wishing to join a brigade must meet both CRL and BRL requirements to apply for recognition.

CHOOSE YOUR PATH. HONOR YOUR SKILLS. GO ABOVE AND BEYOND.

Environmental Specialists are survivalists and scouts who thrive in the most extreme and unforgiving places in the galaxy. Whether navigating frozen wastelands, toxic ruins, deep oceans, or burning deserts, they adapt their gear and tactics to the terrain, always prepared to endure and succeed where few dare venture.

Adapt to Any Environment.

ABOVE AND BEYOND.

SPECIALTIES

ARCTIC

Arctic Ops kits blend seamlessly into icy environments while protecting against the extreme cold, allowing them to operate in conditions where most gear—and warriors—would fail.

AQUATIC

Aquatic Ops kits are built for stealth and endurance beneath the waves, allowing them to strike from the shadows of the deep.

DESERT

Desert Ops kits excel in blistering heat and endless sand. Their armor is designed to endure relentless sun, sandstorms, and dehydration, giving them the upper hand in barren and windswept terrain.

FOREST

Forest Ops thrive in dense foliage and tangled undergrowth. Their armor allows for stealth, mobility, and protection while navigating the complex and dangerous ecosystems of heavily wooded worlds.

HAZ OPS

Hazard Ops kits survive anything, from radioactive zones to chemically poisoned wastelands. Fully encased and reinforced, they go where others can't, bringing war into the deadliest places.

MOUNTAIN

Mountain Ops kits climb are built for scaling sheer cliffs, resisting extreme altitude, and enduring brutal weather, giving them the advantage in vertical battlefields.
