

HAZARDOUS ENVIRONMENT SPECIALIST

BRIGADES

MMCC Brigades represents a distinct set of professions, with specific costume requirements known as Brigade Requirement Lists (BRLs). Members wishing to join a brigade must meet both CRL and BRL requirements to apply for recognition.

CHOOSE YOUR PATH. HONOR YOUR SKILLS. GO ABOVE AND BEYOND.

Haz Ops specialize surviving in the most toxic and lethal settings, from radioactive zones to chemically poisoned wastelands. Fully encased and reinforced, they go where others can't, bringing war into the deadliest places in the galaxy.

Compact Scoped Rifle

Westar Carbine

Exotic Weathering

HAZ OPS WEAPONS

Haz Ops personnel require weapons capable of enduring extreme conditions. Medium-sized blasters and similar ranged weapons are favored for their reliability in the harsh environments where the Mando'ade operate.

WEAPONS

From the depths of space to the harshest planetary environments, a good blade remains an indispensable companion for survival.

Survival Knife

Kal Blades

Minimum required armor includes collar, chest, abdomen, back, cod/armored loin cloth, shoulders, gauntlets, and knees. Era-specific requirements apply regardless of which BRL is selected.

ARMOR

HAZ OP FEATURES

Haz Ops specialists excel in the most hostile environments known to humanity. With little color restrictions, these kits often field some of the most distinctive kits in service.

Heavy weathering is required, including corrosion, acid burns, and other exotic damage on exposed metal surfaces to reflect harsh conditions.
