

MOUNTAIN SPECIALIST

BRIGADES

MMCC Brigades represents a distinct set of professions, with specific costume requirements known as Brigade Requirement Lists (BRLs). Members wishing to join a brigade must meet both CRL and BRL requirements to apply for recognition.

CHOOSE YOUR PATH. HONOR YOUR SKILLS. GO ABOVE AND BEYOND.

Mountain Ops climb and fight in the galaxy's highest and most dangerous elevations. Their kits are built for scaling sheer cliffs, resisting extreme altitude, and enduring brutal weather, giving them the advantage in vertical battlefields.

Compact Rifle

Custom Blaster Pistol

MOUNTAIN WEAPONS

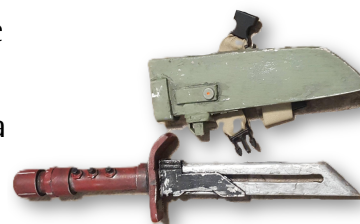

Mountain Ops favor scoped carbines and short rifles that can be easily secured with a sling or holster, allowing for greater mobility while climbing and traversing rugged terrain.

WEAPONS

Mountain Specialists must stay alert to survive the hazards of the high peaks. Alongside a primary weapon, secondary weapons are a necessity.

Static Knife

Vibro Knives

Minimum required armor includes collar, chest, abdomen, back, cod/armored loin cloth, shoulders, gauntlets, and knees. Era-specific requirements apply regardless of which BRL is selected.

ARMOR

MOUNTAIN OPS FEATURES

Mountain Ops specialize in blending in with the rugged mountain environments. Their colors are primarily browns and grays, with minimal black and earthy accent colors.

Mountain kits should display heavy weathering, including scrapes, dents, and impact marks consistent with prolonged use in rugged, rocky terrain.
