

TECHNICIAN

BRIGADES

MMCC Brigades represents a distinct set of professions, with specific costume requirements known as Brigade Requirement Lists (BRLs). Members wishing to join a brigade must meet both CRL and BRL requirements to apply for recognition.

CHOOSE YOUR PATH. HONOR YOUR SKILLS. GO ABOVE AND BEYOND.

Technicians specialize in finding and fixing problems others cannot. From navigation faults to malfunctioning life-support systems, they diagnose, repair, and maintain the technology that keeps Mandalorian forces operating. When equipment fails, Technicians keep the mission moving.

Telescoping Light

Data-pads

Hydrospanners

Fusion Cutter

SPECIALIZED EQUIPMENT

Technicians often employ customized hardware and software to interface with terminals, networks, and starships. These specialized tools allow them to diagnose, maintain, and repair systems, even when working with unfamiliar technology.

WEAPONS

Technicians favor compact blasters and utility blades that can be carried alongside their tools and equipment. Reliable, versatile, and always within reach.

Westar 35

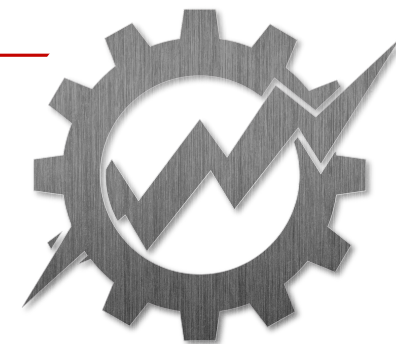

Vibro Knife

Minimum required armor includes a helmet and chest armor. Kits should prioritize sleek, agile designs with minimal bulky plating. All era-specific armor requirements remain in effect regardless of the selected BRL.

ARMOR

MOBILE ENGINEER FEATURES

- A strip of high-visibility material, either neon or reflective, is required on the bicep to improve visibility in work zones.
- Weathering: Moderate to heavy weathering is required. Appropriate effects include oil stains, grease marks, grime, and other signs of regular maintenance and repair work.
- Colors: There are no color restrictions.
