

SNIPER

BRIGADES

MMCC Brigades represents a distinct set of professions, with specific costume requirements known as Brigade Requirement Lists (BRLs). Members wishing to join a brigade must meet both CRL and BRL requirements to apply for recognition.

CHOOSE YOUR PATH. HONOR YOUR SKILLS. GO ABOVE AND BEYOND.

Snipers are masters of patience, calculation, and deadly precision. Armed with long-range rifles and specialized optics, they can eliminate priority targets with a single well-placed shot, often from distances beyond retaliation. A skilled Sniper may remain hidden for days, waiting for the perfect opportunity. Whether protecting an advancing force or disrupting enemy leadership, they bring decisive impact to any mission, all from the shadows.

Cycler Rifle

Spotter Droid

SNIPER WEAPONS

A Sniper's prized possession and signature piece of gear is their long-range rifle and its specialized accessories. Distance and the chaos of battle fall away until nothing remains but the shooter, the trigger, and the target.

WEAPONS

If a Sniper is forced into close-quarters combat, something has gone wrong. Their blaster pistol serves as a last resort until they can regain distance or escape.

Custom Blaster

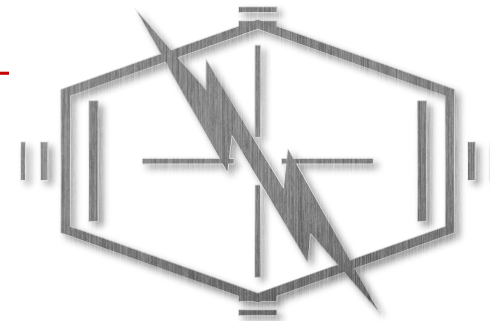

DL-44

Minimum required armor includes collar, chest, abdomen, back, cod/armored loin cloth, shoulders, gauntlets and knees. Era-specific requirements apply regardless of which BRL is selected.

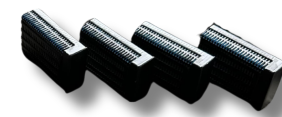

ARMOR

SNIPER FEATURES

- Armor: Must wear light armor to allow for ease of movement between firing positions.
- Gear Storage: Must carry sufficient storage for their equipment. At minimum, four pouches are required.
- Colors: Muted, subdued colors are required.
- Weathering: Light to heavy weathering is acceptable.
- Spotter Droid: A spotter droid may be carried to assist with reconnaissance, targeting, and long-range observation.
